[2006 Annual Reports](#)

[2006 Corporate Citizenship Report](#)

Established in 1982, Sinochem (U.S.A.), Inc. is the backbone trading subsidiary of Sinochem Corporation in the US. Over the years, the company has been engaged in the international trade of plastic particle, distribution of fine chemicals, custom synthesis of pharmaceutical intermediates. In 2006, Sinochem USA Inc. started to marketing the "Jincool" brand refrigerant R-134a in the United States.

Business scope

Plastics

The sales of polyethylene, polypropylene resin and BASF engineering plastics made in North America, South America, Europe and Southeast Asia in the Chinese market and the sales of BOPP film and polyethylene packaging bags made in China in the US and South America. As one of the investors, Sinochem (USA) Inc. is also the most important distributor TITAN which is the largest polyethylene and polypropylene manufacturer in Southeast Asia in the Chinese market.

Fine chemicals & pharmaceutical intermediates

The seamless supply channel between Chinese producers and US end users. We serve pharmaceutical, agrochemical and chemical industries with high performance specialty chemicals and logistic solutions.

Animal Nutrition & Feed additives

Focusing on Vitamin supplements for North America's animal nutrition and feed premix producers. We provide whole supply chain management for our clients.

Refrigerant and Fluorochemical

Sinochem has integrated Chinese strong upstream raw material feedstock supply to secure the strongest position within the fluorochemical industry. State of art production lines and R&D centers in China will position Sinochem as a leading company committed to fluorochemicals. Refrigerant R-134a under the Jincool Brand is the first product commercially available for the marketplace. Sinochem USA Inc. is organizing a dynamic marketing program to serve the US OEM and Automobile aftermarket industries.
